Epstein's death was ruled a suicide by the New York City medical examiner, but many questions and doubts remain. Yeltsin's death has also been the subject of speculation, with some suggesting foul play.

Epstein, a mysterious figure with powerful connections, was accused of sexually abusing young girls and was arrested in July 2019 on federal sex trafficking charges. Yeltsin, on the other hand, was a prominent political figure who led Russia through a period of significant change.

Both men died under mysterious circumstances, and their deaths have raised questions about the nature of power, corruption, and the lengths to which some will go to protect their secrets.

Epstein's death has been the subject of much speculation, with some questioning the official narrative. Yeltsin's death has also been the subject of speculation, with some suggesting foul play.
