Noll argues that evangelicalism has created a culture that is hostile to critical thinking and intellectual inquiry. This is due in part to the evangelical emphasis on personal experience and the Bible as the sole authority for faith and practice. As a result, many evangelicals have become suspicious of reason and scholarship, seeing them as threats to their faith.

The consequences of this anti-intellectualism are devastating. Noll shows how it has led to a decline in the quality of evangelical scholarship, a loss of credibility in the public square, and a growing gap between the church and the academy.

Noll also argues that evangelical biblical illiteracy is a major problem. He shows how many evangelicals have a superficial understanding of the Bible, and how this has led to a number of doctrinal errors and heresies.

The Scandal of the Evangelical Mind is a wake-up call for all Christians. Noll's book is a powerful indictment of the anti-intellectualism and biblical illiteracy that has plagued the evangelical church for centuries.

This book is a must-read for all Christians who want to understand the challenges facing their faith in the 21st century. Noll's insights are invaluable for anyone who wants to see the evangelical church become more intellectually robust and biblically literate.

Table of Contents

1. The Scandal of Anti-Intellectualism
2. The Scandal of Biblical Illiteracy
3. The Consequences of Anti-Intellectualism and Biblical Illiteracy
4. A Call to Reformation
