Daum writes about everything from her first kiss to her first heartbreak, from her awkward teenage years to her early twenties spent trying to figure out who she was and what she wanted to do with her life. She does so with a sharp eye for detail and a wry sense of humor that will make you laugh out loud even as you cringe in recognition.

Daum is not afraid to admit her mistakes, and she does so with a refreshing honesty that is both disarming and endearing. She writes about the time she got drunk and made a fool of herself at a party, the time she got fired from her first job, and the time she had a nervous breakdown. But she also

writes about the moments of grace and beauty that she experienced during her youth, the moments that made it all worthwhile.

*My Misspent Youth* is a coming-of-age story that is both funny and poignant, and it is sure to resonate with anyone who has ever been young and lost. Daum's essays are a reminder that we are all capable of making mistakes, but that we can also learn from them and grow into the people we are meant to be.
