Enhanced typesetting : Enabled
Print length : 180 pages
Screen Reader : Supported

The book is divided into four sections, each covering a different aspect of facial trauma:

- Section 1: Basic Principles of Trauma Surgery
- Section 2: Soft Tissue Injuries
- Section 3: Hard Tissue Injuries
- Section 4: Complex Injuries

Each section is further divided into chapters, each of which covers a specific topic in detail.

The book is richly illustrated with over 1,000 high-quality images, including clinical photographs, radiographs, and surgical diagrams.

The text is written by a team of experienced oral and maxillofacial surgeons, who provide expert commentary on the surgical techniques and procedures described in the book.

This atlas is an essential resource for oral and maxillofacial surgeons, residents, and students.
